Re: Door knob advertising

Is there anything you can do to stop front door solicitation? We are out of town frequently and find this to be publicity to anyone who wants to break into the house as it is left on the door for days. We also find this to be an invasion of our privacy and trespassing, not to mention how trashy it looks.

We have called the 800 number twice to have us removed from the delivery, but that has not worked.

Thank you for your consideration,
