Allouez Village Hall • 1900 Libal Street • Green Bay, Wisconsin 54301-2453  
Phone No.: (920) 448-2800 • Fax No.: (920) 448-2850

## Department of Public Works

### POSSIBLE PURCHASE OF USED TRACKLESS VEHICLE

The Public Works department has a Trackless MT vehicle which used for sidewalk snowplowing, fall and spring leaf collection, and mowing. It serves as the primary unit for leaf collection, and is the backup for snowplowing. We do find that we have to use both the Trackless and the Holder for major snow events and at peak leaf collection. We do use one machine to back-up the other and have found this is needed.

This Trackless is a 2002 unit and is operable, but only in fair condition, and has had major repairs twice. This unit has 5,032 hours on it and 40,300 miles. It would be replaced at 12 years of service, which means it would be replaced in 2015 (12 full years of service completed).

Allouez has been offered a used 2006 Trackless MT5 which has 8,427 miles on it and 941 hours. It is in very good condition but may need some maintenance by the Bruce Equipment before it is sold. Bruce has offered this unit to Allouez for \$41,000 plus sharing in the cost of any maintenance before selling it. We would not need to purchase any attachments for it because we have them already.

This is an interesting opportunity because a new Trackless is about \$110,000. If we purchase in 2015 this would be about what we would incur for a purchase price. This used unit would give us a unit that should function well for 8-9 years (my estimate).

We have considered other machine options to a Trackless/Holder but the cost for a new machine that would be less capable but lower in cost would still be more than the used Trackless.

The Village should consider this used Trackless purchase as a way to replace a unit we know we need to replace, but would save some significant purchase price cost that would probably be in the 2015 budget. However, this purchase is not in this year's budget. This is for the committee and board to consider. If we proceed with this option we would negotiate the best price and a reasonable warranty for the unit.

# 2006 Trackless MT5

USN14736

## FEATURES

- >> 110 HP Cummins Diesel Engine
- >> Additional Hydraulic Kickout Pump
- >> Air Ride Seat
- >> Radial Tires
- >> Blower Control in Cab
- >> Strobe Light
- >> Miles: 8,427     *ans - 40284.9*
- >> Hours: 941     *ans - 50315.1*

## ATTACHMENTS

**\$41,000.00**

### Erskin ES 2400 Blower

- >> Hydraulic Drive
- >> Trackless Pushframe
- >> \$1,900.00

### Trackless Broom

- >> Pushframe
- >> New Broom Segments
- >> \$1,100.00

### Trackless Vee Plow

- >> Pushframe
- >> \$900.00
