Craig,

I had a chance to discuss the original SMA with Programming again this morning and the 3% CSS noted in the document signed in 2011 will be honored. We can still sign an updated version that reflects some of the preliminary village costs at this time (lighting, placeholders for utility adjustments, etc), but it is not as urgent now that the CSS % is already captured. Let me know if you have comments on the revised SMA such as your preliminary thoughts on the lighting and I could include any necessary updates along with reflecting the 3% CSS funding before the village approves a revised version. Thanks,

Andy

Andy-

Please update the agreement to correct to 5 pages. Just in case. It's a comfort detail for the board. Thanks, Craig
