Re: Purchase of radar sign boards

At the July 7th, 2015 Allouez Village Board meeting we had a presentation from Girl Scout Troop 4276 regarding the school zone and 15mph speed limit on Webster Ave at St. Matthews School. The Troop proposed placing radar sign boards in the area to slow traffic.

Since then I have done some research on options for radar/speed boards. I would recommend the Village approve the purchase of two Speed Display boards from All Traffic Solutions for the price of \$3,041 each for a total of \$6,082-see attached quote. The boards are portable and would be used primarily on Webster Ave at St. Matthews School as suggested by Girl Scout Troop 4276 during the school year. During summer months they could be used in other parts of the Village. The Boards are solar powered which adds to the cost slightly, but I believe the solar power would be a better option than having to replace batteries or hard wire each sign to a power source.

For funding options I have funds in the police equipment budget to purchase one of the boards and would request that funding for the second sign come from the contingency fund.
