## Department of Public Works

### PURCHASE OF REPLACEMENT TRUCK FOR #26 DUMP TRUCK

This is a 2016 budgeted purchase to replace #26 Peterbilt dump truck that was purchased in 2004. This truck will have 12 years of operation by the time it is replaced later this year. This truck is in daily use for hauling brush/bulk waste/leaves/yard waste/gravel. The normal service is 10 years for a truck in this duty, but we have been able to extend it somewhat. Replacement at this time avoids major maintenance.

Quotations were received from three truck chassis suppliers and one supplier for the dump body. The quotes are attached.

The total cost for the Western Star dump truck with Truck Equipment body is \$131,400. There may be some additional cost for additional rustproofing after truck delivery.

The Peterbilt truck and body is \$135,414. Allouez has numerous Peterbilt trucks and one Western Star in the Street Dept fleet.

The difference in price between these two quotes is in the cost of the cab (aluminum vs steel) and controls.

The budgeted cost for this truck is \$140,000 less the old truck sale. The old truck will probably be sold thru the municipal auction service.
