Department of Public Works

AWARD OF 2017 STREET MAINTENANCE/PAVING CONTRACT

Attached is the bid summary for the 2017 Street Maintenance contract. This bid is for the streets that are asphalt paved only, and for curb/gutter, sidewalk, storm inlet and miscellaneous repairs and replacement.

The funds for this work are covered in the Public Works operating budget under the street maintenance funds, and contracted services for repairs in the storm/sanitary/water utilities.

The bids are within the budgeted funds for the work. Note that the LeBrun Road paving is not included in this summary as it is being handled by DePere (already bid) and the Allouez cost share will also be paid under the Public Works operating budget.

The total street paving cost is approximately \$354,000 compared to the budget of \$363,000 for 2017.

It is recommended that the contract award be made to MCC, Inc. for this project.

Note that MCC is also the paving firm that is part of the 2017 Street and Utility Reconstruction Project, which has already been awarded and is under construction.
