

Memo

To: Village Board
From: Chris Clark, Director of Parks, Recreation, & Forestry
Re: Community Dog Waste Stations
Date: August 15, 2017

Background Information:

Mr. and Mrs. Tom Weinstein, Allouez residents, approached the Parks Department with an idea of placing pet waste stations on public and private properties throughout the community. They have noticed many occurrences of lack of compliance by pet owners cleaning up waste along streets and sidewalks throughout the community. In discussing the topic with the Weinstein's they mentioned that they have noticed these types of facilities in pet friendly communities that they have visited, such as Austin, Texas.

Their idea for the program would be to seek donations for the purchase of the dog waste stations and place them along well traveled pedestrian routes throughout the village. The stations would either be placed on private property or within the road right of way with the adjacent property owner's approval.

They are asking if the Village would partner with this project to monitor, maintain, and empty the stations on a regular basis.

Previous Information/Action:

None

Budget Item/Funding:

There would be no cost to the Village for the purchase of the waste stations. Replacement baggies for the dispensers would need to be budgeted for.

If the village wishes to participate in the monitoring and waste collection, additional part time staffing or contracting the service would need to be considered.

Staff Recommendation:

Does the Village Board wish to proceed with this type of community wide program and allocate village funds and resources for maintenance and the collection of the waste from the pet waste stations?
