

# TELL US!

## How can we improve bicycling and walking in northeast Wisconsin?

Please participate in our online interactive Crowdsourcing Survey to tell us what concerns you have, or what improvements are needed, for **bicycling and walking** locally and regionally.

Based on what is learned from this survey, the Bay-Lake Regional Planning Commission will be able to plan for issues related to bicycle and pedestrian safety, local/regional connectivity, and recommend improvements to pedestrian and bicycle facilities throughout northeast Wisconsin.

Access the survey online at [www.baylakerpc.org](http://www.baylakerpc.org) or by scanning the QR code below.

The online Crowdsourcing survey will be available through August 2018. We appreciate your help in improving bicycling and walking throughout northeast Wisconsin.

**Subject:** Regional Bicycle and Pedestrian Survey .... We Need Your Input!

## **YOUR OPINION MATTERS!**

### **Attention community leaders, school officials, public works directors, law enforcement, and walking and bicycle enthusiasts of northeast Wisconsin**

The Commission is developing a Bicycle and Pedestrian Plan that will give a regional perspective of walking and bicycling opportunities and facilities located within Brown, Door, Kewaunee, Florence, Manitowoc, Marinette, Oconto, and Sheboygan counties.

As part of the planning process, the Commission would like to gather input from key stakeholders throughout the region through an online interactive Crowdsourcing Survey. The survey provides individuals with a voice in identifying local and regional bicycle and pedestrian issues and concerns. We ask that you please take a moment to complete this online survey.

The survey responses will be used to offer direction and recommendations for the future development or improvement of pedestrian and bicycle facilities within the region as a whole. Recommendations can also be used for local planning efforts.

Please feel free to forward this article to other interested individuals/groups for their input. Clerks/Administrators, please forward this newsletter to your Highway Commissioners or Public Works Directors. An informational flyer is available and accessible near the bottom of this article. Printing and posting/distributing of this flyer will further increase outreach for the survey.

*Help us increase participation of this bicycle and pedestrian survey by printing, posting, and/or distributing the following informational flyer which can be accessed by clicking the following image:*

## Bay-Lake RPC's Regional Bicycle & Pedestrian Plan

is funded through WisDOT's Transportation Alternatives Program (TAP) with the goal of increasing transportation opportunities through identifying, and planning for, bicycle-pedestrian trails, on-road accommodations, sidewalks, etc. throughout northeast Wisconsin. The project is anticipated to be completed by the end of 2018.
