Department of Public Works

2019 Leak Detection Proposal Summary

Early in March the Village of Allouez, City of De Pere, and Manitowoc Public Utilities jointly requested proposals from contractors to perform a comprehensive leak detection survey for the water distribution system in each community. The purpose of the leak detection survey is to pinpoint any and all leaks on the watermains, valves, hydrants, service boxes and services. The Village has approximately 338,449 feet or 64 miles of watermain.

A summary of the proposal cost is attached.
