

WHAT IS A NEIGHBORHOOD ASSOCIATION?

A neighborhood association by definition is neighbors living within a designated area of the village who are concerned about issues affecting their neighborhood and who have decided to work together to protect and ensure a better social, economic, and business climate in their neighborhood.

A neighborhood association is *not* the same as a homeowners association (HOA) as HOAs include codes and dues that must be followed per a developer.

WHAT IS THE PURPOSE OF A NEIGHBORHOOD ASSOCIATION?

The purpose of a neighborhood association is to act as a voice for the neighborhood residents, an official link to local government and the larger community. Many neighborhoods find that by banding together and forming a neighborhood association, they are better able to meet the collective needs of the neighborhood.
