Village of Ashwaubenon and Village of Allouez
Advertisement for Quotes

Notice is hereby given by the Village of Ashwaubenon and the Village of Allouez that quotes will be received until 1:00 p.m. on Monday, December 23, 2019, in the office of the Village of Ashwaubenon Street Operations Supervisor, located at the Village of Ashwaubenon Municipal Building, 2155 Holmgren Way, Green Bay WI 54304.

Quotes will be accepted for the following item:

Two (2) 2020 Skid Mounted Debris Vacuums. Detailed specifications and proposal forms for each community are included below.

The Village of Ashwaubenon and the Village of Allouez reserve the right to accept and/or reject any and all proposals. In comparing proposals, consideration will not be confined to price only. The successful bidder will be the one whose product is judged to best serve the interest of the Villages when price, product, safety, quality and delivery time are considered.

The Village of Ashwaubenon and the Village of Allouez are accepting quotes for Two (2) skid mounted debris vacuums (1 each). The specification herein states the minimum requirements of the Debris Vacuums. All quotes must be regular in every respect. Unauthorized conditions, limitations, or provisions shall be cause for rejection.

The Village will consider as "irregular" or "non-responsive" any quote not prepared and submitted in accordance with the bid document and specification, or any quote lacking sufficient technical literature to enable the Village to make a reasonable determination of compliance to the specification.

Quotes will be accepted for consideration on any make or model that is equal or superior to the debris vacuum specified. Decisions of equivalency will be at the sole interpretation of the Village's Department of Public Works. A blanket statement that equipment proposed will meet all requirements will not be sufficient to establish equivalence. Original manufacturer's brochures of the proposed unit are to be submitted with the proposal.

All modifications made to the standard production unit described in the manufacturer's brochures must be certified by the manufacturer and submitted with the quote, or the quote will be deemed "non-responsive" and rejected without further review. Bidder must be prepared to demonstrate a unit similar to the one proposed, if requested.

Vendor shall complete every space in the Bidder's Proposal column with either an X (X) mark to indicate what is being quoted is exactly as specified or a description to indicate any deviation of item being bid from the specifications.

Section	VILLAGE OF ASHWAUBENON Specification	Bidder's Proposal
