2021 STREET & UTILITY RECONSTRUCTION PROJECT

Preliminary plans for the reconstruction of the following streets in 2021 have been completed:

- Roselawn Blvd. – West Half
- Beaumont St. – Greene Ave. to Mission Rd.
- Kalb St. –Libal St. to the East River

In general, the street and utility reconstruction project improvements include the removal of the existing asphalt pavement, concrete curb and driveways; the relaying of the existing public utilities (sanitary sewer, watermain and storm sewer) and renewal of exiting laterals; roadway excavation and placement of base aggregate; pouring of concrete curb, driveway and sidewalk; asphalt paving and landscape restoration.

To avoid impacts to the trees located within the Roselawn Blvd. islands and lower the project cost, the Village is proposing to improve the failing sanitary sewer by the insertion of CIPP liner. In addition, due to the overall condition (good) of the existing trunk-line storm sewer, improvements to the existing system will be limited to the replacement of inlets and storm leads and spot repair of the trunk-line storm sewer. An estimated overall Roselawn Blvd project savings of approximately \$200,000.

The estimated cost of the street reconstruction project with the construction of sidewalk is \$3.3 million. The project will be funded by Village bonding in 2021.
