RE: Proposed 2023 Street and Utility Street Reconstruction Project

Dear Property Owners,

The Village of Allouez Public Works Department is proposing to reconstruct the following street segments in 2023:

- Roselawn Blvd – 1400 ft East of Riverside Dr. to Webster Ave.
- Karen Ln – Libal St. to Greenwald St.
- Allouez Terr. – Riverside Dr. to Termini
- Jackson St. – Allouez Terr. to Derby Ln.

In general, the proposed project consists of the reconstruction of the street and utilities. The design is likely to match the existing paved roadway widths of which will be reviewed by the Public Works Committee and Village Board at a later date.

The underground utility work will include the removal and replacement of the watermain. The sanitary sewer and storm sewer will be televised by the Village to determine existing pipe conditions and the scope of the sewer improvements. The proposed utility work will likely also include the replacement of the laterals (water, sanitary, and storm) from the main to the property line.

On Roselawn Boulevard it is our intent to design and construct the roadway improvements as discussed, applied and set forth under the 2021 street reconstruction project. Similarly, the roadway will be engineered to accommodate the construction of sidewalk in the future.

During the week of August 29th and September 6th the engineering consultant will be completing a topographic survey of the street segments above of which will also include the underground infrastructure. Prior to the survey the underground utilities will be located and marked in the field. To ensure that the reconstruction project properly matches the grade of your property, the topographic survey will extend outward onto your property approximately 10 feet.

At the completion of the preliminary plans, an in-person open house meeting, with plans on display, will be provided. A letter will be sent in the future notifying you of the date and time of the meeting. If you have any concerns or questions, please feel free to call Jeff Piette, Village Engineering Technician at 920-448-2809 or myself at 920-448-2802.

Sincerely,

Sean J. Gehin, P.E.
Village of Allouez
Director of Public Works
